LG
Life's Good

List of solar panel suppliers and manufacturers in alphabetical order[1].

- There are over 400 solar manufacturers worldwide, and over 320 suppliers and manufacturers have solar panels certified in Australia[2].
- There are fewer than 400 manufacturers worldwide of either cars, air conditioning or TVs.
- Find a manufacturer below you have heard of before.
- Which of them will remain in business for 57 years like LG has?

When you buy your solar panels you expect them to last for many years. Quality solar panels are expected to reliably generate electricity for 25 years.

LG has been in Australia since 1997 and has been operating since 1958.
Your manufacturer support and warranties will only be as good as the company backing the warranties.

With more than 400 solar panel manufacturers worldwide, many of them more recent companies, LG's 57 years of research and manufacturing history has given us a lot of experience in manufacturing excellent electronics product.

If you choose LG solar panels this will offer you long term peace of mind. If quality and warranties matter, LG Mono-X range and NeON panels should be the solar product of your choice.

[1] As per Clean Energy Council's list of approved and accredited solar panels at 30 March 2015.
